PROJECTS

- **Car Booking Management System (Java)**
  Developed a desktop-based car booking management application with features like booking, cancellation, and user data handling

- **E-commerce Website (MERN Stack)**
  Built a full-stack e-commerce website using MongoDB, Express.js, React.js, and Node.js with user authentication, product listing, and cart functionalities.

- **Mobile App Prototype (Figma)**
  Designed a high-fidelity mobile application prototype using Figma focusing on user journey, visual consistency, and intuitive navigation.

- **Android Mobile Application (Java/XML)**
  Created a mobile app for beauty product suggestions with basic UI/UX, using Android Studio and Java for front-end logic and design.
